

EMERGENCY ALERT ATTENTION VOTERS!!!

Working families are under radical attack by reactionary politicians and billionaires who want to silence our voices by passing Proposition 32. Proposition 32 is a radical interference within our personal liberties by eliminating the right to deduct political funds through payroll deduction. The Labor Movement fights for all people and communities whether workers are union or non-union. We urge all workers, seniors, students, and families to mobilize and defeat Prop 32.

James R. Hoffa, "We know the difference between a commodity and a human being.

It is tragic that so few of our law makers have never earned a days pay with their hands, have never had to put a paycheck into a sweat soaked bill fold in the pocket of dirty overalls."

"The test is here, and it is simple. Will American working men and women stand up to remain free, or are they too apathetic to protect their rights?"

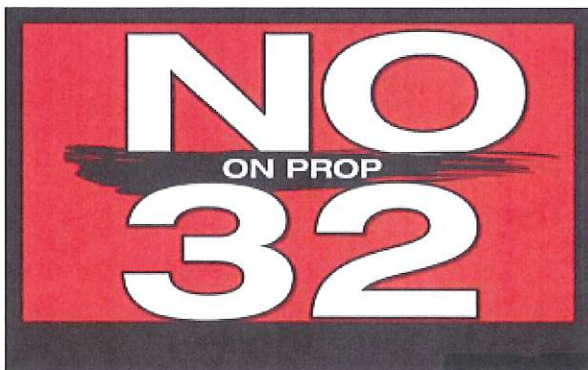

Dolores Huerta, Latina labor leader, civil rights activist said, "First, we need to remember, all of the benefits that the working people have here in California come from the work of unions.

Everything that we have-Social Security, an eight-hour day, workplace safety, unemployment benefits-everything that we have is thanks to their work. This Prop. 32 wants to take away the voice of the working people."

*Prop 32 would do nothing to fix Sacramento,
but will only make things worse by*
***SILENCING THE VOICE OF
WORKING FAMILIES.***

***It's unbalanced and unfair,
and it hurts all of us.***
